4 BEDROOMS - SLEEPS 8 ADULTS

Luxe House - only 100mtrs from the pristine Casuarina Beach and a local cafe/restaurant literally at your door, this is the newer style beach home you have been looking for.

White, light, breezy, beautifully and so tastefully appointed! Did this home win "the Block"? Parts of the exterior have been wrapped in timber composite to give it that Nordic appeal, combined with concrete flooring downstairs and timber floorboards that lead upstairs; the aesthetics of this beach house are quite beautiful.

The north facing pool area is central to the home and entertaining area, and also boasts a sauna for complete relaxation! A covered outdoor dining area connects to the garden, pool, living and kitchen area seamlessly. The naturally greyed external timber features of the home really come to life around the entertaining and pool area. Quite unique!

A full bathroom and guest bedroom is located on the ground level with an additional three more bedrooms upstairs. Master has generous walk in robe and magnificent en-suite and another family bathroom also located on the top floor.
